

The Advantages of Choosing SBP Primed Stile & Rail Doors

- ✓ **Unmatched Availability, Reliable Consistency, and Exceptional Value.**
- ✓ **Stile & Rail Construction**
The stiles and rails use a solid engineered core and dowel pins for added strength, stability, and reduced sound transmission.
- ✓ **Paint-Ready Surface**
With a tough MDF veneer bonded to the core, it resists wear and tear while providing a superior surface for painting.
- ✓ **Sharp Details**
A true 90° degree shaker style sticking with crisp shadow lines providing greater definition.
- ✓ **Architecturally Correct**
Crafted with precision, ensuring each stile, rail, and panel is in perfect harmony for a visually balanced and aesthetically pleasing appearance.

Available with Glass Options
Clear or Frit glass offer a distinctive look not possible with molded doors.
